*** Actual Tank Dimensions May Vary Due To Various Mfg. Specifications.
Gas Volumes May Vary Due To Physical Properties of Specific Gases.*

Weld Specialty Supply designed this liquid cylinder cart for maximum safety and versatility for our customers. This cart allows anyone to easily move an 800 lb. cryogenic cylinder, either by hand or by fork lift. No more tipping or dangerous lifting of the cylinder is required. Our 200L cylinders are available with or without the cart.

Towing Handles

Fork Lift Pockets

Front view shows 200L liquid cylinder cart forklift pockets, accessible from two sides and the hand towing handle.

Side View of 200L cart shows large wheel diameter which allows safer, easier and smoother movement of cylinder.

230L cylinder shows the manufactures version of a liquid cylinder cart with smaller diameter wheels & no fork lift pockets.
